## Ministers Change of Status

Ministerial membership in the Fellowship is available in three categories: Ordained, Licensed or Exhorter. The Fellowship recognizes that the ordaining and licensing of ministers is a function of the local church and is not a part of the work of the Fellowship. Any minister joining the Fellowship must indicate what CHURCH, BIBLE SCHOOL, or DENOMINATION (not an Evangelistic Assoc.) has granted them their license or ordination. It is the policy of the Fellowship that a minister must have been previously licensed for at least **one year** (by one of the described above before they can be recognized as Ordained.

Members who wish to upgrade their status to either License or Ordained must secure this from a local church, either their home church or a nearby Fellowship affiliated church. Guidelines and suggestions for churches in setting up standards and qualifications as suggested by our FGFCMI Constitution are available from the Fellowship office.

When the service of licensing or ordination has been held, the following information should be supplied to the Fellowship office. Members of the Fellowship in good standing will be issued a Certificate of Recognition and a new credential card by the Fellowship.
